---

## Perfect Harmony Panoramic and Belt Technology

We combine the superior silence and speed features of Belt technology with a panoramic elevator.

Externally attractive, panoramic elevators to help passengers not only comfortable to move between floors, but also allow to get aesthetic pleasure from the contemplation of the outside of the building space, thereby increasing ridership and encouraging people to shop, which is especially important for shopping centers. For people with a fear of confined spaces are no problems with the rise in panoramic elevator.
